ProteK PB-62W 6 Outlet Smart Surge Protector with Wi-Fi

Protection and Flexibility

The new Protek series of surge protectors from ELAC provides sophisticated protection for your sensitive electronics.

ALWAYS ON

PROTECTED

EMI / RFI Noise Filtration

AC power from your power company can become noisy on its way to your home and ultimately to your equipment. Static electricity, certain appliances in your home can all introduce noise into your homes electricity. All 6 outlets of the PB-62W offer 40db of noise reduction providing your sensitive electronics with clean power.

ELAC Protek App

Simply connect the PB-62W to your home Wi-Fi network and download our free ELAC Protek app. The Protek app allows for setting a countdown timer, scheduling, and controlling the power on two of the surge protectors outlets. You can even control the surge protector from outside of the house.

Surge Protection

Power surges can originate both inside and outside the home. When your home loses power or the power company performs a grid switch a surge of power can enter your home. When higher power devices, such as an air conditioner, hair dryer, or electric oven are turned on and off can also cause a spike of voltage throughout your homes electrical system. The PB-62W offers up to 540 Joules of surge protection and reacts to surges in 1 nanosecond.

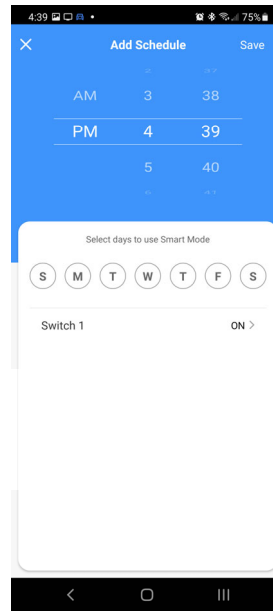

Alexa and Google Assistant Compatible

Once connected to your home Wi-Fi network you can control the PB-62W with your Google Nest Hub or Amazon Alexa just by using your voice.

PB-62W SPECIFICATIONS

LINE VOLTAGE	120 Volts
MAX CURRENT RATING	15 Amps
NUMBER OF AC OUTLETS	6 Total (4 Controllable)
INDICATOR LEDS	Protected and Wi-Fi Status
SURGE ENERGY JOULE RATING	540J
RESPONSE TIME	1 NANOSECOND
MAX SPIKE CURRENT	36,000 Amps
MAX SPIKE VOLTAGE	6,000 Volts
L-N, L-G, N-G PROTECTION	Yes
THERMAL FUSING	Yes
NOISE FILTER EMI /RFI	40 dB
WI-FI	Yes (2.4GHz only)
Home Automation	Alexa and Google Assistant
AC Cord Length	6ft
Compliance	UL 1449, UL 1363, FCC, IEC

\$100,000 Connected Equipment Guarantee*

This surge protector is designed to protect your electronic equipment from AC power surges up to its rated specifications only. If an electrical surge above the rated specifications of this surge protector enter this device, connected devices may not be protected. Please understand that electrical surges can enter electronics devices through any interconnected conductive connections. These interconnections can include coax lines, phone lines, ethernet lines, AV connections and any other conductive material.
